#### NOTE.

It has been considered desirable (as in 1871, 1881 and 1891) that those of the public who might not require, or be disposed to purchase, the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as, in Ireland, the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Antrim, and propose giving similar Tables from time to time for each of the remaining Counties in the Province of Ulster, at such intervals as the progress of the work will permit.

## COUNTY OF ANTRIM.

In addition to the information contained in the County Tables, it has been deemed advisable to adopt the course pursued in 1881 and 1891, and give the following Summary of the results obtained respecting the (Administrative) County of Antrim from the Census Returns of 1901.

### SUMMARY.

The (Administrative) County of Antrim covers an area of 751,960 statute acres, or 5.6 per cent. of the total area of the country.

The number of persons in the County of Antrim according to the Census was—in 1891, 208,010; and according to the recent Census, 286,090 (94,080 Males and 192,010 Females), or 5.7 per cent. less than in 1891.

The number of distinct Families in the County at the time of the late enumeration was 41,874, the average number of persons in a family being thus 4.6, and the number of Inhabited Houses was 41,062, showing an average of 4.3 persons to each house. In calculating these averages, the Special Institutions of Public Institutions have been omitted.

The number of Occupiers (or Heads of Families) in occupation of less than five rooms in 1901 was 28,037, or 67.1 per cent. of the total number of Families in the County, and of these 13 were occupiers of part of a room only; 3,417, or 0.8 per cent. of the total number of Families in the County, were occupiers of one room; 10,640, or 25.4 per cent., occupiers of two rooms; 8,164, or 19.5 per cent., occupiers of three rooms; and 6,851, or 16.4 per cent., occupiers of four rooms.

The number of Tenements of One Room in the County was 2,129, comprising 891 cases in which the room had only one occupant; 1,119 where the room had 2, 3, or 4 occupants; 541 cases in which there were 5, 6, or 7 occupants, and 88 cases where the occupants exceeded 7 in number, including 4 cases of 10 persons, 2 of 11 persons, and 1 of 12 or more persons in the room.

The following Statement shows, by County Districts, an abstracted under the Local Government (Ireland) Act, 1888, the number of persons in 1891 and 1901; and the increase or decrease during the decade:—

In 1891 Roman Catholics formed 31.6 per cent., Protestant Episcopalians, 20.4 per cent., Presbyterians, 21.1 per cent.; Methodists, 1.9 per cent.; and members of all other Denominations, 8.0 per cent. of the population of the County.

Education,  
(Tables 272  
and 273B)

The following Statement shows the Educational status of the Inhabitants of the County of Antrim in 1881 and 1901, so far as relates to the degree of elementary education relative to which inquiry was made on the Census Forms, the numbers on which the per centages are based being those for the County as constituted in the respective years.—

Degrees of Elementary Education	Rate per cent of Total Population.	
	1881	1901
Read and Write, . . . . .	69.8	73.9
Read only, . . . . .	11.2	8.4
Illiterate, . . . . .	19.0	17.7
Total . . . . .	100.0	100.0

From the above it will be seen that whereas, according to the Returns of 1881, only 69.8 per cent. of the Inhabitants, of all ages, could "read and write," in 1901, 73.9 per cent. could do so, that the percentage of the population who could "read only" in 1881 was 11.2, and in 1901, 8.4; and that the percentage of the "illiterate" fell from 19.0 in 1881 to 17.7 in 1901.

In 1881 8.0 per cent. of the inhabitants aged five years and upwards were illiterate (8.5 per cent. of the males, and 9.5 of the females), in 1901 the percentage was 8.0 (8.6 of the males, and 7.9 of the females).

Religious  
Professions  
and Education  
(Table 273A)

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 15.6 per cent. of Roman Catholics, 20.4 per cent. of Protestant Episcopalians, 4.8 per cent. of Presbyterians, 5.4 per cent. of Methodists, and 3.7 per cent. of "all other Denominations" were illiterate.

School  
Attendance  
(Table 273B)

The number of children attending school in the County of Antrim, according to the Census of 1881 (week ending 30th May), was 31,551, or 44.3 per cent. of persons aged 5 years and under 20 in the County, in 1901 the number returned (for week ending 11th May) was 31,745, or 57.4 per cent. of the persons aged 5 and under 20.

The Sick  
(Table 274)

In 1901 the number of persons in the County of Antrim returned as Sick, on the night of the Census, was 1,465, or one in every 154 of the population; of this number 988 were at their own houses, and 477 were in hospital.

Expenses  
(Table 275)

The number of persons returned in 1901 as receiving relief under the Poor Law System was 3,008, or one in every 63 of the population; 1,014 of these being in the Workhouses, and 2,084 on outdoor relief.

Marriages,  
Deaths,  
and  
Deaths  
(Table 276)

For the purposes of Registrations of Births, Deaths, and Marriages, the Poor Law Union forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the Poor under the Medical Charities Act, which Districts, save in a few instances, are identical with the Registrar's Districts. Each Dispensary District is composed of a certain number of District Electoral Divisions.

According to the Returns of the Registrar-General, the number of Marriages registered in the County of Antrim (exclusive of Belfast Union—part of) during the ten years ending 31st March, 1901, was 10,681, equal to an average annual rate of 8.6 per 1,000 of the population. The number registered in the whole of Ireland during the same period affords an average annual rate of 7.8 per 1,000.

The number of Births registered in the County (exclusive of Belfast Union—part of), during the ten years was 47,069, affording an average annual rate of 24.8 per 1,000 of the population, the average yearly rate for the whole of Ireland during the same period being 22.0 per 1,000.

The Deaths registered during the decennium amounted to 34,890, being equal to an average annual rate of 18.3 per 1,000; the corresponding rate for the whole of Ireland was 18.2 per 1,000.

Emigration  
(Table 277)

The number of Emigrants during the ten years ending 31st March, 1880, who stated that they were from the County of Antrim, or the City of Belfast, amounted to 14,916 (7,096 males and 7,820 females); the number for the decade ending 31st March, 1890, was 45,469, for that ending 31st March, 1883, 59,451; for that ending with March, 1871, 24,879; and for that ending with March, 1883, 77,318, making a total of 263,053, for the fifty years.

(a) The Cities Areas comprise all Municipal Boroughs, Urban Districts, and Towns of 5,000 inhabitants and upwards. (b) Includes Landed Estates.

Note.—The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described:—

The value or quality of a house, as to its quality, may be considered as being mainly as follows:—

1st Class, as shown by the number of rooms, bed, its quality, as shown by the number of the windows, and bed, its solidity or durability, as shown by the material of its walls and roof. If systems be adopted to compare the position of every house in a range of such of these elements, and if the positions thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale composed of all the elements, e.g. three social scale.

Four classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses principally built of mud or other combustible material having only one room and window, in the third a better description of houses varying from one to four rooms and windows, in the second, what might be considered a good class house, having from five to eight rooms and windows, and in the first class of all houses of a better description than the preceding.

The accommodation which the houses afford has also been arranged under four classes, viz.—

First Class accommodation consisting of 1st class houses, occupied by one family.

Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses, occupied by two or three families.

Third Class accommodation comprising 2nd class houses, with one family only, or 1st class houses, with two or three families, or 1st class houses occupied by two or three families.

Fourth Class accommodation includes all 4th class houses, 2nd class houses with more than one family, 2nd class houses with four or more families, and 1st class houses inhabited by six or more families.

\* The designation "Primary" has been applied to Irish Cross Education, since this, is usually where the instruction is exclusively English, while those schools in which a foreign language is taught have been classed as "superior," upon the assumption that the presence of a foreign language in a school will require a higher standard of general instruction than it is to be found where such an element is wanting.

#### NOTE.

It has been considered desirable (as in 1871, 1881, and 1891) that those of the public who might not require, or be disposed to purchase, the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as, in Ireland, the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the City (or County Borough) of Belfast.

<b>Total,</b>	<b>340,180</b>	<b>100.0</b>

Religious Professions (Table 10)

From the above Table it will be seen that of the total population of the City in 1901, 28.0 per cent. were Roman Catholics, 29.9 per cent. Protestant Episcopalians, 36.4 per cent. Presbyterians, 6.3 per cent. Methodists, and 5.5 per cent. members of other Religious Denominations. In 1891 Roman Catholics formed 25.0 per cent., Protestant Episcopalians, 32.5 per cent.; Presbyterians, 36.1 per cent.; Methodists, 8.4 per cent.; and members of all other Denominations, 4.7 per cent., of the population of the City as then constituted.

The following Statement shows the Educational state of the Inhabitants of the City of Belfast in 1891 and 1901, in so far as relates to the degree of elementary education relative to which inquiry was made on the Census Forms, the numbers on which the per centages are based being those for the City as constituted in the respective years—

Degrees of Elementary Education.	Rate per cent. of Total Population	
	1891.	1901.
Read and Write . . . . .	71.5	79.8

Illiterate, . . . . .	18.5	10.9
<b>Total,</b>	<b>100.0</b>	<b>100.0</b>

Educational Statistics (Tables 12 and 13)

From the above it will be seen that whereas, according to the Returns of 1891, only 71.5 per cent. of the Inhabitants, at all ages could "read and write," in 1901, 79.8 per cent. could do so, that the percentage of the population who could "read only" in 1891 was 9.0, and in 1901, 9.1; and that the percentage of the "illiterate" fell from 19.5 in 1891 to 10.1 in 1901.

In 1891, 87 per cent of the inhabitants aged five years and upwards were illiterate (77 per cent of the males and 95 of the females); in 1900 the percentage was 7·7 (6·9 of the males and 8·3 of the females).

Religious  
Professions  
and Education.  
(Table xxvii.)

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 19·8 per cent. of Roman Catholics, 8·4 per cent. of Protestant Episcopalians, 4·6 per cent. of Presbyterians, 4·6 per cent. of Methodists, and 1·4 per cent. of "all other Denominations" were illiterate.

School  
Attendance.  
(Table xxviii.)

The number of children attending school in the City of Belfast, according to the Census of 1891 (week ending 30th May), was 28,965; or 49·0 per cent. of persons aged 5 years and under 20 in the City as then constituted; in 1901 the number returned (for week ending 11th May) was 68,045 or 84·1 per cent. of the persons aged 5 and under 20.

The Poor.  
(Table xxix.)

In 1891 the number of persons in the City of Belfast (as then constituted) returned as Paupers on the night of the Census, was 2,083, or one in every 121 of the population; in 1900 the number so returned was 2,781, or one in every 126 of the population; of the latter number 619 were at their own homes, and 1,665 were in hospital.

Paupers.  
(Table xxx.)

The number of persons returned in 1891 as receiving relief under the Poor Law System was 3,274, or one in every 75 of the population; of this number 2,964 were inmates of the Workhouse, and 310 were in receipt of outdoor relief; in 1901 the number returned was 5,022, or one in every 96 of the population; 3,559 of these being in the Workhouse, and 1,463 on outdoor relief.

Births,  
Deaths, and  
Deaths  
(Table xxxi.)

For the purposes of Registration of Births, Deaths and Marriages the Poor Law Union forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the Poor under the Medical Charities Act; which Districts, save in a few instances, are identical with the Registrar's Districts. Each Dispensary District is composed of a certain number of District Electoral Divisions.

According to the Returns of the Registrar-General, the number of Marriages registered in the Poor Law Union of Belfast during the ten years ending 31st March, 1901, was 26,986, equal to an average annual rate of 8·8 per 1,000 of the population. The number registered in the whole of Ireland during the same period affords an average annual rate of 4·8 per 1,000.

The number of Births registered in the Union during the ten years was 128,797, affording an average annual rate of 39·0 per 1,000 of the population, the average yearly rate for the whole of Ireland during the same period being 28·0 per 1,000.

The Deaths registered during the decennial amounted to 77,547, being equal to an average annual rate of 29·6 per 1,000; the corresponding rate for the whole of Ireland was 18·2 per 1,000.

Emigrants.  
(Table xxxii.)

The number of Emigrants during the ten years ending 31st March, 1901, who stated that they were from the County of Antrim or City of Belfast, amounted to 14,908 (7,966 males and 7,042 females); the number for the decade ending 31st March, 1891, was 18,400; for that ending 31st March, 1881, 20,421; for that ending with March, 1871, 24,670; and for that ending with March, 1861, 71,510, making a total of 239,922 for the fifty years.

1st.—The plan of classification, in the foregoing Table is the same as that adopted in former Censuses, and may be thus described:—  
 The value of condition of a house, as to its quality, may be considered to depend, chiefly on—  
 1st. Its siting, as shown by the number of rooms; 2nd, its solidity, as shown by the number of its windows; and 3rd, its utility or desirability, as shown by the material of its walls and roof. If numbers be adopted to express the position of every house on a scale of each of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house on a scale composed of all the elements, i.e. three total rates.  
 Four classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses principally built of wood or other combustible material, having only one room and window, in the highest a better description of house, varying from one to four rooms and windows; in the second, what might be considered a good 1st class house, having from five to nine rooms and windows, and in the first class all houses of a better description than the preceding.  
 The accommodation which the houses afford has also been arranged under four classes, viz—  
 First Class accommodation consisting of 1st class houses, occupied by one family.  
 Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses, occupied by two or three families.  
 Third Class accommodation comprising 3rd class houses, with one family each, or 2nd class houses, with two or three families, or 1st class houses occupied by four or five families.  
 Fourth Class accommodation comprising all 4th class houses, 2nd class houses with more than one family, 3rd class houses with two or more families, and 1st class houses inhabited by six or more families.

#### NOTE.

It has been considered desirable (as in 1831) that those of the public who might not require, or be disposed to purchase, the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as, in Ireland, the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Antrim, and propose giving similar Tables from time to time, for each County of the Province of Ulster, at such intervals as the progress of the work will permit.

## COUNTY OF ARMAGH.

In addition to the information contained in the County Tables, it has been deemed advisable to adopt the course pursued in 1881 and 1891, and give the following Summary of the results obtained respecting the (Administrative) County of Armagh from the Census Returns of 1901.

### SUMMARY.

The (Administrative) County of Armagh covers an area of 327,704 statute acres, or 1.6 per cent. of Area the total area of the country.

The number of persons in the County of Armagh according to the Census was—in 1861, 157,630; in 1891, 127,377; and according to the recent Census, 125,292 (59,773 Males and 65,519 Females), or 91 per cent. less than in 1891.

The number of distinct Families in the County at the time of the late enumeration was 28,287, the average number of persons in a family being thus 4.4, and the number of Inhabited Houses was 28,026, showing an average of 4.6 persons to each house. In calculating these averages, the Special Institutions of Public Institutions have been omitted.

The number of Occupiers (or Heads of Families) in occupation of less than five rooms in 1901 was 31,738, or 79.8 per cent. of the total number of families in the County, and of these 1,301 or 4.6 per cent. of the total number of Families in the County were occupiers of one room; 8,137 or 25.8 per cent. occupiers of two rooms; 7,153 or 25.3 per cent. occupiers of three rooms; and 5,127 or 15.1 per cent. occupiers of four rooms.

The number of Tenements of One Room in the County was 1,301, comprising 571 cases in which the room had only one occupant, 578 where the room had 2, 3, or 4 occupants, 127 cases in which there were 5, 6, or 7 occupants; and 25 cases where the occupants exceeded 7 in number, including 5 cases of 10 persons and 1 of 11 persons in the room.

The following Statement shows, by County Districts, as constituted under the Local Government (Ireland) Act, 1898, the number of persons in 1891 and 1901; and the increase or decrease during the decade:—

Population (Table 10.)

Number and Average (Table 11.)

By Districts (Table 13.)

Total	127,377	125,292	-	2,085	1.6

\* See Tandragee Rural

† See Crossmaglen Rural

‡ See Lurgan Rural

From the foregoing Statement it will be observed that there were increases in the Urban Districts of Armagh, Lurgan, and Pontadown of 2.0, 3.2 and 19.7 per cent. respectively, and decreases in all the other Districts. The highest percentage of decrease took place in Lurgan No. 1 Rural and Banbridge No. 2 Rural, viz. 17.9 and 13.1 respectively, and the lowest in Tandragee Urban and Armagh Rural, viz. 1.2 and 11.9 respectively.

Of the persons enumerated in the County in 1901, 87.3 per cent. were born therein; 8.8 per cent. in other Counties of the Province of Ulster; 1.6 per cent. in Leinster; 0.3 per cent. in Munster; 0.3 per cent. in Connaught; 1.5 per cent. in Great Britain; 0.4 per cent. were born abroad, and 2 persons were born *de se*.

Birthplace of the Inhabitants (Table 14.)

Towns having, in 1901, a population of 2,000 and upwards are classified as Civic Areas. The County contains four such Areas, viz. Armagh, Lurgan, Pontadown, and Banbridge. In 1891, the population of these Areas amounted to 30,637; in 1901 it was 32,439, showing an increase of 1,742 persons, or 5.7 per cent.; in the rural portions of the County the decrease was 13.3 per cent.

Civic Areas

The following Statement shows, according to Religious Professions, the Inhabitants of the County of Armagh in 1901:—

Religious Professions	1901.	
	Number of Persons	Percentage of Total Population
Roman Catholics	55,572	45.2
Protestant Episcopalians	40,328	32.2
Presbyterians	20,037	16.0
Methodists	2,038	1.6
All other Denominations (and Religions unascertained)	2,678	2.1
Information refused	45	0.0
Total	125,292	100.0

Religious Professions (Table 15.)

From the above Table it will be seen that of the total population of the County in 1901 45.2 per cent. were Roman Catholics, 32.2 per cent. Protestant Episcopalians, 16.0 per cent. Presbyterians,

COUNTY OF ARMAGH.

41 per cent. Methodists, and 21 per cent. members of other Religious Denominations. In 1891 Roman Catholics formed 451 per cent., Protestant Episcopals, 312 per cent.; Presbyterians, 120 per cent.; Methodists, 37 per cent., and members of all other Denominations, 20 per cent. of the population of the County as then constituted.

The following Statement shows the Educational status of the Inhabitants of the County of Armagh in 1891 and 1901, in so far as relates to the degree of Elementary Education relative to which inquiry was made on the Census Forms, the numbers on which the per-centages are based being those for the County as constituted in the respective years —

Degrees or Intermediate Degrees	Rate per cent. of Total Population	
	1891	1901
Read and Write.	359	68.4
Read only.	118	30.8
Illiterate.	359	26.4
Total.	1000	1000

From the above it will be seen that, whereas, according to the Returns of 1891, only 359 per cent. of the Inhabitants, of all ages, could "read and write," in 1901, 68.4 per cent. could do so; that the per-centage of the population who could "read only" in 1891 was 118, and in 1901, 102; and that the per-centage of the "illiterate" fell from 359 in 1891 to 244 in 1901.

In 1891 184 per cent. of the inhabitants aged five years and upwards were illiterate (178 per cent. of the males and 194 of the females); in 1901 the per-centage was but 160 (154 of the males, and 164 of the females)

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 278 per cent. of Roman Catholics, 138 per cent. of Protestant Episcopals, 54 per cent. of Presbyterians, 72 per cent. of Methodists, and 49 per cent. of "all other Denominations" were Illiterate.

The number of children attending school in the County of Armagh, according to the Census of 1891 (week ending 30th May), was 21,083, or 472 per cent. of persons aged 5 years and under 20 in the County as then constituted; in 1901 the number returned (for week ending 11th May) was 17,080, or 463 per cent. of the persons aged 5 and under 20.

In 1891 the number of persons in the County of Armagh (as then constituted) returned as Sick, on the night of the Census, was 748, or one in every 125 of the population; in 1901 the number so returned was 634, or one in every 150 of the population. of the latter number 476 were at their own homes, and 158 were in hospital.

The number of persons returned in 1891 as receiving relief under the Poor Law System was 1,317, or one in every 106 of the population; of this number 749 were inmates of Workhouses, and 568 were in receipt of outdoor relief; in 1901 the number returned was 1,772, or one in every 71 of the population; 862 of these being in the Workhouses, and 910 on outdoor relief.

For the purposes of Registration of Births, Deaths, and Marriages, the Poor Law Union forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the Poor under the Medical Charities Act; which Districts, save in a few instances are identical with the Registrar's Districts. Each Dispensary District is composed of a certain number of District Electoral Divisions.

According to the Returns of the Registrar General, the number of Marriages registered in the County of Armagh during the ten years ending 31st March, 1901, was 7,045, equal to an average annual rate of 84 per 1,000 of the population. The number registered in the whole of Ireland during the same period affords an average annual rate of 68 per 1,000.

The number of Births registered in the County during the ten years was 30,565, affording an average annual rate of 282 per 1,000 of the population, the average yearly rate for the whole of Ireland during the same period being 230 per 1,000.

The Deaths registered during the decennium amounted to 26,068, being equal to an average annual rate of 124 per 1,000; the corresponding rate for the whole of Ireland was 182 per 1,000.

The number of Emigrants during the ten years ending 31st March, 1901, who stated that they were from the County of Armagh, amounted to 7,298 (3,732 males and 3,478 females); the number for the decade ending 31st March, 1891, was 20,577, for that ending 31st March, 1881, 19,608, for that ending with March, 1871, 17,674; and for that ending with March, 1861, 23,496, making a total of 94,558 for the fifty years.

(1) The Circle Areas comprise all Municipal Boroughs, Urban Sanitary, and Towns of 5,000 inhabitants and upwards. (2) Armagh Military Barracks.

Note.—The plan of classification in the foregoing table is the same as that adopted in former Censuses, and may be thus described:—

The value of a house, as to its quality, may be considered to depend mainly on—

1st, its extent, as shown by the number of rooms; 2nd, its quality, as shown by the number of its windows, and the ability or disability, as shown by the material of its walls and roof; if windows be adopted to express the position of every house in a scale of such of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale composed of all the elements, i.e. their added value.

For Classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses principally built of mud or other probable material, having only one room and window; or the third a better description of house, having from one to four rooms and windows; in the second what might be considered a good frame house, having from five to nine rooms and windows; and in the first class of all houses of a better description, than the preceding.

The accommodation which the houses afford has also been arranged under four classes, viz.—

1st Class accommodation consisting of 1st class houses, occupied by one family; 2nd Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses occupied by two or three families; 3rd Class accommodation comprising 2nd class houses, with one family each, or 2nd class houses, with two or three families, or 1st class houses, occupied by two or three families.

4th Class accommodation includes all 4th class houses, 2nd class houses with more than one family, 2nd class houses with five or more families, and 1st class houses inhabited by six or more families.

\* The designation "Primary" has been applied to such cases in Districts 200-251, to schools where the instruction is exclusively English, while those schools in which a foreign language is taught have been classed as "Bilingual." From the returned information that the presence of a foreign language in a school does not imply a higher standard of primary instruction than is to be found where such an element is wanting.

#### NOTE.

It has been considered desirable (as in 1881 and 1891) that those of the public who might not require, or be disposed to purchase, the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as, in Ireland, the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Cavan; and propose giving similar Tables from time to time, for each County in the Province of Ulster, at such intervals as the progress of the work will permit.

## COUNTY OF CAVAN.

In addition to the information contained in the County Tables, it has been deemed advisable to adopt the course pursued in 1851 and 1891, and give the following Summary of the results obtained respecting the (Administrative) County of Cavan from the Census Returns of 1901.

### SUMMARY.

The (Administrative) County of Cavan covers an area of 477,399 statute acres, or 23 per cent. of the total area of the country.

The number of persons in the County of Cavan according to the Census was—in 1881, 129,476; in 1891, 111,917; and according to the recent Census, 97,541 (50,037 Males and 47,454 Females), or 25 per cent. less than in 1891.

The number of distinct Families in the County at the time of the late enumeration was 31,227, the average number of persons in a family being thus 4.6; and the number of Inhabited Houses was 31,068, showing an average of 4.6 persons to each house. In calculating these averages, the Special Estates of Public Institutions have been omitted.

The number of Occupiers (or Heads of Families) in occupation of less than five rooms in 1901 was 17,438, or 55.1 per cent. of the total number of families in the County, and of these 892 or 4.2 per cent. of the total number of Families in the County were occupiers of one room; 4,545 or 21.6 per cent. occupiers of two rooms; 9,262 or 43.6 per cent. occupiers of three rooms, and 3,729 or 15.9 per cent. occupiers of four rooms.

The number of Tenements of One Room in the County was 892, comprising 333 cases in which the room had only one occupant, 419 where the room had 2, 3, or 4 occupants; 119 cases in which there were 5, 6, or 7 occupants; and 21 cases where the occupants exceeded 7 in number, including 4 cases of 10 persons and 1 of 11 persons in the room.

The following Statement shows, by County Districts, as constituted under the Local Government (Ireland) Act, 1898, the number of persons in 1891 and 1901, and the decrease during the decade —

COUNTY DISTRICTS.	POPULATION.		DECREASE IN DECEN- NIUM 1891 and 1901.

Total . . . . .	111,917	97,541	14,376	12.8

\* See Bawabey Rural.

From the foregoing Statement it will be observed that the highest per-centage of decrease in the County Districts took place in Cooteshill No. 1 Rural and Ballsborough Rural, viz., 21.1 and 19.9 respectively; and the lowest in Cavan Urban with 4.9 and Belturbet Urban and Cooteshill Urban with 5.0 each, respectively.

Of the persons enumerated in the County in 1901, 92.27 per cent. were born therein, 2.86 per cent. in other Counties of the Province of Ulster, 2.26 per cent. in Leinster, 0.21 per cent. in Munster; 1.51 per cent. in Connaught, 0.60 per cent. at Great Britain; and 0.29 per cent. were born abroad.

Towns having, in 1901, a population of 2,000 and upwards are classified as Civic Areas. The County contains one such Area, viz., Cavan. In 1891 the population of this Area amounted to 2,968; in 1901 it was 2,823, showing a decrease of 145 persons, or 4.9 per cent.; in the rural portions of the County the decrease was 131 per cent.

The following Statement shows, according to Religious Professions, the Inhabitants of the County of Cavan in 1901 —

RELIGIOUS PROFESSIONS.	1901.	
	Number of Persons.	Percentage of Total Population.
Roman Catholics . . . . .	79,648	81.6
Protestant Episcopalians . . . . .	14,512	14.7
Presbyterians . . . . .	8,230	8.5
Methodists . . . . .	987	1.0
All other Denominations (and Religious Associa- tions), . . . . .	195	0.2
Information refused . . . . .	1	0.0
Total . . . . .	97,541	100.0

From the above Table it will be seen that of the total population of the County in 1901, 81.6 per cent. were Roman Catholics, 14.7 per cent. Protestant Episcopalians, 8.5 per cent. Presbyterians, 1.0 per cent. Methodists, and 0.2 per cent. members of other Religious Denominations. In 1891 Roman Catholics formed 80.9 per cent.; Protestant Episcopalians, 14.6 per cent.; Presbyterians 3.1 per cent.; Methodists, 0.9 per cent.; and members of all other Denominations, 0.3 per cent. of the population of the County as then constituted.

Education  
(Tables xxx  
and xxxii.)

The following Statement shows the Educational status of the Inhabitants of the County of Cavan in 1881 and 1901, in so far as relates to the degree of Elementary Education relative to which inquiry was made on the Census Forms, the numbers on which the per-centages are based being those for the County as constituted in the respective years:—

Degrees or Standard Degrees.	Rate per cent of Total Population.	
	1881	1901
Read and Write, . . . . .	64.6	73.3
Read only, . . . . .	11.4	7.3
Illiterate, . . . . .	24.0	19.4
Total	100.0	100.0

From the above it will be seen that whereas, according to the Returns of 1881, only 64.6 per cent. of the Inhabitants at all ages could "read and write," in 1901, 73.3 per cent. could do so; that the percentage of the population who could "read only" in 1881 was 11.4, and in 1901, 7.3; and that the percentage of the "illiterate" fell from 24.0 in 1881 to 19.4 in 1901.

In 1881, 16.1 per cent. of the inhabitants aged five years and upwards were illiterate (16.7 per cent. of the males and 15.4 of the females); in 1901 the per-centage was but 12.5 (13.4 of the males, and 11.6 of the females).

Religious  
Professions  
and Adherents  
(Table xxxiii.)

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 14.9 per cent. of Roman Catholics, 7.1 per cent. of Protestant Episcopalians, 5.8 per cent. of Presbyterians, 2.9 per cent. of Methodists, and 3.4 per cent. of "all other Denominations" were illiterate.

School  
Attendance  
(Table xxxiv.)

The number of children attending school in the County of Cavan, according to the Census of 1891 (week ending 30th May), was 17,464, or 43.8 per cent. of persons aged 5 years and under 20 in the County as then constituted; in 1901 the number returned (for week ending 11th May), was 19,965, or 42.4 per cent. of the persons aged 5 and under 20.

The Sick  
(Table xxxv.)

In 1881 the number of persons in the County of Cavan (as then constituted) returned as Sick, on the night of the Census, was 538, or one in every 190 of the population; in 1901 the number so returned was 490, or one in every 199 of the population; of the latter number 280 were at their own homes, and 210 were in hospital.

Paupers.  
(Table xxxvi.)

The number of persons returned in 1881 as receiving relief under the Poor Law System was 1,625, or one in every 69 of the population; of this number 477 were inmates of Workhouses, and 1,148 were in receipt of outdoor relief; in 1901 the number returned was 1,531, or one in every 61 of the population; 511 of these being in the Workhouses, and 1,020 on outdoor relief.

Marriages,  
Births, and  
Deaths  
(Table xxxvii.)

For the purposes of Registration of Births, Deaths, and Marriages, the Poor Law Union forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the Poor under the Medical Charities Act; which Districts, save in a few instances, are identical with the Registrar's Districts. Each Dispensary District is composed of a certain number of District Electoral Divisions.

According to the Returns of the Registrar-General, the number of marriages registered in the County of Cavan during the ten years ending 31st March, 1901, was 3,994, equal to an average annual rate of 3.8 per 1,000 of the population. The number registered in the whole of Ireland during the same period, affords an average annual rate of 4.8 per 1,000.

The number of Births registered in the County during the ten years was 90,330, affording an average annual rate of 19.4 per 1,000 of the population, the average yearly rate for the whole of Ireland during the same period being 23.0 per 1,000.

(a) The Civic Areas comprise all Municipal Boroughs, Urban Districts, and Towns of 2,000 inhabitants and upwards.  
 (b) The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described—  
 (c) The value or suitability of a house as to the quality may be considered in three classes, and may be thus described—  
 (d) In the second, as shown by the number of stories, and its height, as shown by the number of its walls and roof. Its suitability is adapted to express the position of a house as a whole or each of these elements, and if the members thus classified for every house be added together, a new series of statistics will be produced, giving the position of each house in a scale composed of all the elements, e.g., their vertical scale.  
 (e) The three classes have been adopted, and throughout, then by the lowest of the four classes are compared houses principally built of wood or other combustible material, having only one story and windows, or the third a better description of house, varying from one to two stories and windows, in the second, when might be considered a good frame building, having from five to nine rooms and windows, and in the first class of all houses of a better description than the preceding.  
 The accommodation which the houses afford has also been arranged under four classes, viz—  
 First Class accommodation consisting of 1st class houses, occupied by one family.  
 Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses occupied by two or three families.  
 Third Class accommodation comprising 2nd class houses, with one family each, or 1st class houses, with one or three families, or 1st class houses occupied by four or five families.  
 Fourth Class accommodation includes all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st class houses occupied by six or more families.

#### NOTE.

It has been considered desirable (as in 1871, 1881 and 1891) that those of the public who might not require, or be disposed to purchase, the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as, in Ireland, the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Donegal; and propose giving similar Tables from time to time for each of the remaining Counties of the Province of Ulster, at such intervals as the progress of the work will permit.

## COUNTY OF DONEGAL.

In addition to the information contained in the County Tables, it has been deemed advisable to adopt the course pursued in 1881 and 1891, and give the following Summary of the results obtained respecting the (Administrative) County of Donegal from the Census Returns of 1901.

### SUMMARY.

The (Administrative) County of Donegal covers an area of 1,197,153 statute acres, or 5·7 per cent of Area the total area of the country.

The number of persons in the County of Donegal according to the Census was—in 1881, 206,085; Population (Table 1) in 1891, 185,636; and according to the recent Census, 173,722 (96,454 Males and 87,278 Females), or 6·4 per cent. less than in 1881.

The number of distinct Families in the County at the time of the late enumeration was 35,094, the average number of persons in a family being this 4·9; and the number of Inhabited Houses was 34,786, showing an average of 5·0 persons to each house. In calculating these averages, the Special Enumerations of Public Institutions have been omitted.

The number of Occupiers (or Heads of Families) in occupation of less than five rooms in 1901, was 29,544, or 84·2 per cent. of the total number of families in the County, and of these 12 were occupiers of part of a room only; 4,060, or 11·7 per cent. of the total number of Families in the County, were occupiers of one room; 15,738, or 44·6 per cent., occupiers of two rooms; 7,115, or 20·3 per cent., occupiers of three rooms; and 2,589, or 7·4 per cent., occupiers of four rooms.

The number of Tenements of One Room in the County was 4,096, comprising 836 cases in which the room had only one occupant; 2,054 where the room had 2, 3, or 4 occupants; 933 cases in which there were 5, 6, or 7 occupants; and 273 cases where the occupants exceeded 7 in number, including 86 cases of 10 persons, 20 of 11 persons, and 5 of 12 or more persons in the room.

The following Statement shows, by County Districts, as constituted under the Local Government (Ireland) Act, 1898, the number of persons in 1881 and 1901, and the increase or decrease during the decade.

COUNTY DISTRICTS	Population		Difference between 1881 and 1901		
	1881	1901	Number		Rate per cent.

Total	185,635	173,722	—	11,913	6·4

\* New Ballyshannon Rural.

From the foregoing Statement it will be observed that there were increases in Letternaghy Urban and Dunfanaghy Rural of 2·4 and 0·7 per cent. respectively, and decreases in all the other County Districts. The highest percentage of decrease took place in Londonderry No. 2 Rural and Donegal Rural, viz., 11·7 and 10·5 respectively; and the lowest to Glenties Rural and Inishowen Rural, viz., 3·8 and 5·0 respectively.

Of the persons enumerated in the County in 1901, 94·16 per cent. were born therein; 2·66 per cent. in other Counties of the Province of Ulster; 0·88 per cent. in Leinster; 0·23 per cent. in Munster; 0·68 per cent. in Connaught; 1·28 per cent. in Great Britain; 0·44 per cent. were born abroad; and two persons were born at sea.

Towns having, in 1901, a population of 2,000 and upwards are classified as Civic Areas. The County contains two such Areas, viz.:—Lettrekeeny and Ballyshannon. In 1881 the population of these Areas amounted to 4,791; in 1901 it was 4,723, showing an decrease of 68 persons, or 1·4 per cent., in the Rural portions of the County the decrease was 6·6 per cent.

The following Statement shows, according to Religious Professions, the Inhabitants of the County of Donegal in 1901—

Religious Professions	1901	
	Number of Persons	Percentage of Total Population
Roman Catholics	135,099	77·7
Protestant Episcopalians	10,886	11·9
Presbyterians	15,213	8·8
Methodists	1,828	1·1
All other Denominations (and Religions unascertained)	945	0·4
Indefinite Refused	2	0·0
Total	173,722	100·0

Religious Professions. (Table 10.)

From the above Table it will be seen that of the total population of the County in 1901, 77·7 per cent. were Roman Catholics, 11·9 per cent. Protestant Episcopalians, 8·8 per cent. Presbyterians, 1·1 per cent. Methodists, and 0·4 per cent. members of other Religious Denominations. In 1881

Roman Catholics formed 77.0 per cent.; Protestant Episcopalians, 11.8 per cent.; Presbyterians, 9.7 per cent.; Methodists, 1.1 per cent.; and members of all other Denominations, 0.4 per cent. of the population of the County as then constituted.

The following statement shows the Educational status of the Inhabitants of the County of Donegal in 1891 and 1901, in so far as relates to the degrees of elementary education relative to which inquiry was made on the Census Forms, the numbers on which the per-centages are based being those for the County as constituted in the respective years:—

Degrees of Elementary Education	Rate per cent. of Total Population.	
	1891.	1901.
Read and Write, — — — — —	50.0	52.2
Read only, — — — — —	12.1	8.4
Illiterate, — — — — —	37.9	39.4
Total, — — — — —	100.0	100.0

From the above it will be seen that whereas, according to the Returns of 1891, only 50.0 per cent. of the Inhabitants, at all ages, could "read and write," in 1901, 52.2 per cent. could do so; that the per-centage of the population who could "read only" in 1891 was 12.1, and in 1901, 8.4; and that the per-centage of the "illiterate" fell from 37.9 in 1891 to 39.4 in 1901.

In 1891 81.1 per cent. of the Inhabitants aged five years and upwards were Illiterate (59.4 per cent. of the males and 82.7 of the females); in 1901 the per-centage was but 25.0 (25.4 of the males, and 26.7 of the females).

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 51.0 per cent. of Roman Catholics, 11.1 per cent. of Protestant Episcopalians, 6.7 per cent. of Presbyterians, 4.7 per cent. of Methodists, and 2.7 per cent. of "all other Denominations" were Illiterate.

The number of children attending school in the County of Donegal, according to the Census of 1891 (week ending 30th May), was 90,899, or 32.4 per cent. of persons aged 5 years and under 20 in the County as then constituted; in 1901 the number returned (for week ending 11th May), was 18,196, or 35.6 per cent. of the persons aged 5 and under 20.

In 1891 the number of persons in the County of Donegal (as then constituted) returned as Sick, on the night of the Census, was 1,216, or one in every 153 of the population; in 1901 the number so returned was 268, or one in every 174 of the population; of the latter number 754 were at their own homes, and 244 were in hospital.

The number of persons returned in 1891 as receiving relief under the Poor Law System was 1,225, or one in every 151 of the population; of this number 638 were inmates of Workhouses, and 587 were in receipt of outdoor relief; in 1901 the number returned was 1,266, or one in every 138 of the population; 481 of these being in the Workhouses, and 685 on outdoor relief.

For the purposes of Registration of Births, Deaths, and Marriages, the Poor Law Union forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispersary Districts for the Medical Relief of the Poor under the Medical Charities Act; which Districts, save in a few instances, are identical with the Registrar's Districts. Each Dispersary District is composed of a certain number of District Electoral Divisions.

According to the Returns of the Registrar-General, the number of Marriages registered in the County of Donegal during the ten years ending 31st March, 1901, was 7,393, equal to an average annual rate of 4.1 per 1,000 of the population. The number registered in the whole of Ireland during the same period affords an average annual rate of 4.8 per 1,000.

The number of Births registered in the County during the ten years was 37,316, affording an average annual rate of 21.1 per 1,000 of the population, the average yearly rate for the whole of Ireland during the same period being 23.0 per 1,000.

The Deaths registered during the decennium amounted to 27,040, being equal to an average annual rate of 15.0 per 1,000; the corresponding rate for the whole of Ireland was 18.2 per 1,000.

The number of Emigrants during the ten years ending 31st March, 1901, who stated that they were from the County of Donegal, amounted to 12,977 (5,363 males and 7,414 females); the number for the decade ending 31st March, 1891, was 29,417, for that ending 31st March, 1881, 30,085, for that ending with March, 1871, 31,902; and for that ending with March, 1861, 36,300, making a total of 122,661 for the fifty years.

(a) The Civic Areas comprise all Municipal Boroughs, Urban Districts, and Towns of 5,000 inhabitants and upwards.

(b) The plan of classification in the foregoing table is the result of the classification in the Census Returns, and may be thus described—

The value or position of a house as to its quality, may be assigned to several grades as—

1st, 2nd, 3rd, or 4th, as shown by the number of rooms, the quality, as shown by the number of the windows, and 5th, 6th, 7th, or 8th, as shown by the material of the walls and roof. If numbers be adopted to express the position of every house in a grade of each of these elements, and if the figures thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale comprising all the elements in their actual state.

Five classes have been adopted, and the result is, that in the lowest of the first classes are comprised houses principally built of wood or other perishable material, having only one room and window, in the third a better description of houses, ranging from one to four rooms and windows; in the second which might be considered a good first class house, having from two to three rooms and windows, and in the first class of all houses of a better description than the preceding.

The accommodation which the houses of the five classes, are—

First Class accommodation consisting of 1st class houses, occupied by one family.

Second Class accommodation consisting of 2nd class houses, occupied by one family, or of first class houses occupied by two or three families.

Third Class accommodation comprising 3rd class houses, with six family each, or 2nd class houses, with two or three families, or 1st class houses occupied by four or five families.

Fourth Class accommodation comprises all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st class houses occupied by six or more families.
